

## CHP 1/2 - Chemical Hand Pumps

Designed for safety with an excellent capacity, these pumps are suitable for over 500 different chemicals.

Pumps can be fitted with either Nitrile, Butyl, EPDM or Viton diaphragms to enhance liquid compatibility.

Body components are made from PP or PTFE and the fastenings are available in 316L or Hastelloy.

The CHP1 & CHP2 may be Wall or Base mounted by rotating the ports through 90°

CHP1 Polypropylene Body & 316L Internal Screw

CHP2 Polypropylene Body & Hastelloy internal screw.

Capacity: 66 l/min

Connections: 1" BSP(m)

Head: 4.5m

Lift: 6.0m

Weight: 1kg

Dimensions: 150L x 170W x 170H mm
